

N.C.C. M&D Co., Ltd. has often encountered numerous short circuit problems causing danger to exhibitors and visitors mainly due to the installation of equipment that is not regulated by exhibitors or contractors, such as illegal connection or equipment adaptation, therefore, all electrical installation works must be carried out by applying the following rules:

1. All electrical installation must conform strictly to the required TISI standard (in Thailand) without any exception.
2. There are two main power supply circuits: “For Exhibit” and “For Lighting”. It is forbidden to misuse the power supply as follows.
 - a. Orders under Section B: Socket/Breaker for Exhibits are allowed for devices such as machinery, engine, TV, Laptop charger, etc. and **not allowed** to apply for all Lighting equipment such as spotlight, LED Ribbon, etc.
 - b. Orders under Section C: Breaker for Lighting are allowed for devices such as Spotlight, LED, Ribbon, etc.
3. The cable of a main power, water, and compressed air supply from the utility hatch, is provided at **2-meters** long. An extension of the length or any relocation are subjected to a surcharge following the price for each equipment.
4. The standard electrical supply is 110V, 220V, or 380V with approximately 10 percent fluctuation.
5. For all electrical usage, it is mandatory to calculate the circuit load with a 20 percent safety margin.
6. It is prohibited for power supply, water, and compressed air wiring equipment to be installed crossing any aisle in the exhibition for safety reasons and not to obstruct traffic for all exhibitors, visitors, and other contractors.
7. A 3-Phase circuit breaker is required to **connect directly** with machinery or engine, otherwise, a **load center** will be required if multi-connection is needed.
8. The company prohibits any equipment installation that causes damage or misuse to our equipment installed for the exhibition.
9. The Electrical Official Contractor reserves the right to disconnect the electrical supply to an installation, which in opinion is deemed as dangerous or likely to cause disturbance to others without prior notice. Exhibitors/contractors will not be entitled to claim any damages both directly and indirectly from any and all parties involved.
